

TAX EXPOSURE SUMMARY

Prepared for Project Falcon due diligence of Acme Robotics, Inc. Status: scaffold seed document, Day 6 (D6-M5).

1. Open Tax Years

The open tax years for Acme Robotics are fiscal years 2024, 2025 and 2026; federal and state income tax returns for those years remain open to examination. No examinations are currently in progress.

2. Carryforward Analysis

Acme carries \$2,100,000 of federal research credit carryforwards expiring between 2031 and 2035, subject to limitation upon a change of ownership.

3. Sales and Use Tax

A voluntary disclosure review identified approximately \$340,000 of unremitted sales and use tax exposure across three states, constituting the primary open tax exposure.

4. Intercompany Pricing

Intercompany service fees are documented under a cost-plus arrangement with a contemporaneous transfer pricing study.
